Satisfactory Academic Progress Policy

Satisfactory progress in attendance and academic work is a requirement for all students enrolled. It is the same for all students within a given program and with the same attendance schedule. The policy complies with the guidelines established by the Council on Occupational Education (COE) and the federal regulations established by the United States Department of Education.

Evaluation Periods

Students are evaluated for Satisfactory Academic Progress (SAP) as follows:

Cosmetology	450, 900, and 1200 actual clock hours
Esthetics	300 actual clock hours

Evaluations will determine if the student has met the minimum requirements for SAP. The frequency of evaluations ensures that students have ample opportunity to meet both the attendance and academic progress requirements of at least one evaluation by midpoint in the course. Evaluations are discussed with the student after each evaluation period. Copies of evaluations will be provided to the student at the student's request.

Attendance Progress Evaluations

All students must maintain at least an 85% (rounding to the nearest whole number) cumulative attendance average to be considered making satisfactory progress and to complete the program within the maximum time frame. Evaluations are conducted at the end of each evaluation period to determine if the student has met the minimum requirements.

Maximum Time Frame

The maximum time (which does not exceed 118% of the course length) allowed for students to complete each course at satisfactory academic progress is stated below:

		Maximum Time Allowed	
		Weeks	Scheduled Hours
Cosmetology-Raleigh 28, 35 hrs./wk.	1500 hrs.	52	1765
Esthetics Full-time, 28 hrs./wk.	600 hrs.	26	706

The maximum time allowed for transfer students who need less than the full course requirements will be determined based on 85% of the scheduled hours.

Academic Progress Evaluations

All students must also maintain a minimum of 75% (rounding to the nearest whole number) cumulative average in theory to be considered making SAP.

Determination of Progress

Attendance and academics are evaluated, and students are counseled according to their strengths and weaknesses at intervals listed above. A student must maintain a cumulative attendance rate of at least 85% and a GPA of at least 75% in theory at each grading period. Students meeting the minimum requirements for academics and attendance at the evaluation point are making satisfactory academic progress until the next evaluation. Students deemed not maintaining SAP may have their Title IV Funding interrupted, unless the student is on warning or has prevailed upon appeal resulting in the status of probation. Personal counseling sessions will be available as needed.

The grading scale for practical and theory is:

A=94-100 B=87-93 C=81-86 D= 75-80 Failing= below 75

Warning

Students who fail to meet minimum requirements for attendance or academic progress are placed on warning and considered to be making SAP during the warning period. The student will be advised in writing on the actions required to attain SAP by the next evaluation. If at the end of the warning period, if the student still has not met both the attendance and academic requirements, he/she may appeal for probation and, if applicable, maintain eligibility to receive Title IV funds. If the appeal is not approved Title IV funds will be terminated, and the student may be subject to termination.

Probation

Students who fail to meet minimum requirements for attendance or academic progress after the warning period and have been successful in their petition for appeal will be placed on probation and considered to be making SAP during the probationary period. Additionally, only students who can meet the SAP standards by the end of the evaluation period may be placed on probation. Students placed on an academic plan must be able to meet requirements set forth in the academic plan by the end of the next evaluation period. Students who are progressing according to their specific academic plan will be considered making SAP. The student will be advised in writing of the actions required to attain SAP by the next evaluation. If at the end of the probationary period, the student still has not met both the attendance and academic requirements for SAP or their academic plan, he/she will be determined as NOT making SAP and, if applicable, student will be ineligible to receive Title IV funds and may be terminated from the program. All probation appeals will be reviewed by the corporate office on an individual basis.

Re-establishment of satisfactory academic progress

Students may re-establish SAP and Title IV aid as applicable, by meeting minimum attendance and academic requirements at the end of the probationary period.

Interruption

If enrollment is temporarily interrupted for any reason the student will return to school in the same progress status as prior to the interruption. Students who withdraw prior to completion of the program and wish to re-enroll will return to the same satisfactory academic progress status as at the time of withdrawal.

Appeal Procedure

If a student is determined to not be making SAP, the student may appeal the determination within 10 calendar days. Reasons for which students may appeal a negative progress determination include death of a relative, an injury or illness of the student, or other special or mitigating circumstance. The student must submit a written appeal to the school on the designated form with supporting documentation of the reasons why the determination should be reversed. This information should include what has changed about the students' situation that will allow them to achieve SAP by the next evaluation point. Appeal documents will be reviewed, and a decision will be made and reported to the student within 30 calendar days. The appeal and decision documents will be retained in the student file. If the student prevails upon appeal the SAP determination will be reversed, and Title IV funds will be reinstated, if applicable.

Special Grading Conditions

There are no incompletes, remedial courses, or repetitions. A withdrawal has no impact on satisfactory progress. A student's status prior to a withdrawal will be reinstated upon return.

Transfer Hours

Regarding SAP, a student's transfer hours will be counted as both attempted and earned hours.
